<b>Office Action Summary</b>	<b>Application No.</b> 10/668,152	<b>Applicant(s)</b> HORIE ET AL.	
	<b>Examiner</b> Callie E. Shosho	<b>Art Unit</b> 1714	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

1. All outstanding rejections except for those described below are overcome by applicants' amendment filed 5/18/06.

The new grounds of rejection set forth below are necessitated by applicants' amendment and thus, the following action is final.

**Double Patenting**

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claim 1 is provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-2 of copending Application No. 10/668,158. Although the conflicting claims are not identical, they are not patentably distinct from each other because of explanation given in paragraph 2 of the office action mailed 8/4/05.

**Claim Rejections - 35 USC § 102**

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

5. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Kato et al. (U.S. 6,143,806).

The rejection is adequately set forth in paragraph 8 of the office action mailed 1/18/06 and is incorporated here by reference.

6. Claims 1-2 are rejected under 35 U.S.C. 102(e) as being anticipated by Qian et al. (U.S. 2002/0128349).

The rejection is adequately set forth in paragraph 9 of the office action mailed 1/18/06 and is incorporated here by reference.

**Claim Rejections - 35 USC § 103**

7. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

8. Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over Kato et al. (U.S. 6,143,806) or Qian et al. (U.S. 2002/0128349) either of which in view of Satake et al. (U.S. 5,814,685).

The rejection is adequately set forth in paragraph 11 of the office action mailed 1/18/06 and is incorporated here by reference.

**Response to Arguments regarding double patenting rejection**

9. Applicants argue that the double patenting rejection of record should be withdrawn in light of the amendment to the present claims to recite cooling and pulverizing the mixture to form colored admixture. Applicants argue that such feature is not present in the copending claims.

However, it is noted that the copending claims in 10/668,158 have also been amended to recite cooling and pulverizing the mixture to form colored admixture. Thus, it is the examiner's position that the double patenting rejection of record remains relevant against the present claims.

**Response to Arguments regarding 35 USC 102&103 rejections of record**

10. Applicants' arguments filed 5/18/06 have been fully considered but they are not persuasive.

Specifically, applicants argue that there is no disclosure in either Kato et al. or Qian et al. of fine particles being obtained by melting and kneading a coloring agent and binder resin and

cooling and pulverizing the resulting mixture to form a colored admixture and dispersing the colored admixture in non-aqueous medium as now required in present claim 1.

It is agreed that neither Kato et al. or Qian et al. disclose producing fine particles by melting and kneading followed by cooling and pulverizing as presently claimed. However, it is noted that “[E]ven though product-by-process claims are limited by and defined by the process, determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production. If the product in the product-by-process claim is the same as or obvious from a product of the prior art, the claim is unpatentable even though the prior product was made by a different process”, *In re Thorpe*, 777 F.2d 695, 698, 227 USPQ 964, 966 (Fed. Cir. 1985) . Further, “although produced by a different process, the burden shifts to applicant to come forward with evidence establishing an unobvious difference between the claimed product and the prior art product”, *In re Marosi*, 710 F.2d 798, 802, 218 USPQ 289, 292 (Fed. Cir.1983).

Therefore, absent evidence of criticality regarding the presently claimed process and given that Kato et al. and Qian et al. each meet the requirements of the claimed product, i.e. fine particle comprising coloring agent and binder resin, it is clear that Kato et al. and Qian et al. meet the requirements of the present claims.

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

12. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Callie E. Shosho whose telephone number is 571-272-1123. The examiner can normally be reached on Monday-Friday (6:30-4:00) Alternate Fridays Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan can be reached on 571-272-1119. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
